Camp Perry is the best advertised and at the same time the least popular of all of Florida's health resort.

That "White Winged Dove of Peace" fluttering above Portsmouth, seems to be about ready to resume its flight.

Oranges are ripening, but we have not as yet heard the whistie of that new railroad that was promised us to move this season's crop.

Virginians had a great day at Louisa Va. It was the unveiling of a confederate moument and the exercises ineident thereto. The monument is a heroic figure of a Confederate soldier in uniform and with his accoutrements arranged in bas relief in stone. It stands on a neat pedestal in the court house square, midway between the main entrance gate and the new court house. It is the work of W. L. Shepherd, of Richmond, and is at once expressive and highly artistic. This patriotic work of raising monuments to the dead Confederacy goes right along in the various Southern States. It seems to be the intention to never let the memory of the Confederacy die, and so mote it be .- Jacksonville Metropolis.

COUNTY COMMISSIONERS AGREE. The County Commissioners of De Soto have deicded to leave the matter of an appropriation for an exhibit at the State Fair, to be held in Tampa, to the will of the people. In doing so shey have acted wisely, and it is the Tope of many of the county's most cominent citizens that a large approniation, or at least \$2000, will be made and they will vote for that amount. For less, this county can not be rephester (N. H.) Mirror

be ample. The chance to advertise De Soto's immense resources are greater than ever before and it will be wrong not to take advantage of the opportunity. Gen. Gilchrist, who opposed the State appropriation, is strongly in favor of a large county appropriation, for he realizes that the fair will be a huge one and the advertising opportunities unexcelled. Let every patriotic citizen of De Soto coun-send an exhibit to Tampa that the county will feel proud of.

THE PRESIDENT TAKING A HAND. The President, it is understood, is aking a hand in the Portsmouth negotiations. A point has been reached where a rupture is regarded as almost inevitable. It is now quite confidently expected that the negotiations will come to an end early this week, perhaps at the meeting on Tuesday. Still there is a chance that a way will be found to overcome the seeming insurmountable obstacles which are now in the way of further proceedings. The envoys have gone to the limit of their instructions, and the Mikado and the Czar have been cabled the situation. It is for them to open the way for a continuance of the negotaitions. It is 847 barely possible that the President may make some suggestions that will have a helpful effect. It is understood that Baron Rosen is having a talk with him at Sagamore Hill. No one of the Japanese envoys is expected to consult with him. Hence, the inference is that Japan proposes to have what she has demanded or continue the war. There are four things the Japanese demand which the Russian refuse to concede. ting them to the dimly lighted par- They demand the Russian ships interned in neutral ports, the limitation of Russia's sea power on the Pacific, the cession of the Island of Sakhalin ty is assuming gigantic proportions. and an indemnity approaching the amount the war has cost them.

Are the demands reasonable, all the their plants and shipments at this time circumstances considered? As a matter of fact the ships are not worth a great deal, and perhaps, Japan would That idea of Professor Moulie's be willing, if the other matters would ment perfumery manufactories in be adjusted to abandon her claim on Florida, is well worth consideration them.
